

March 16, 2016

**TO: Ministry of Transportation and Infrastructure, Province of British Columbia**  
**RE: Bike BC**

**Green Timber Greenway**

The HUB Cycling Surrey Committee supports the application from the City of Surrey for funding to assist with completing the major missing portion of the Green Timbers Greenway cycling network along the Hydro right of way between King George Blvd. and 138 Street.

This is an important crosstown link in Surrey, connecting from the Golden Ears Bridge in Langley to the Alex Fraser Bridge in Delta with a safe pedestrian, cycling pathway. This route allows connections to the Surrey Memorial Hospital, SkyTrain, Surrey City Centre and Green Timbers Park.

We hope that you will support the funding to Surrey for completion of this needed project.

Tim Yzerman  
Chair, Surrey Committee
