

# OCTOBER 25-26

## ADVANCED STREETWISE CYCLING SKILLS COURSE

Improve your confidence and skill at riding safely in all traffic situations.

The Advanced Streetwise is course in advanced commuter cycling course for people who already have some experience riding in traffic. It is designed for more experienced cyclists, age 16 and up, who would like to take their skills to the next level.

A combination of classroom and on-bike instruction covering bikes and the law, bicycle handling, route planning, basic maintenance and traffic theory will improve your ability to ride in challenging traffic situations.

This course is being offered to VSB staff and students and is an approved External Pro-D opportunity for who staff can apply for reimbursement. Scholarships are also available to interested students.

Cycling course for  
VSB staff and  
students

Gain the skills and  
confidence needed to  
cycle in the city.

Bring these skills to  
your school  
community and start  
encouraging higher  
levels of active  
transportation!
