#### 4. Old Business

##### 4.1 **TTAC PM** - Skip

**TAC MR** - The council rep on the TAC has informed the committee that the Active School Travel (AST) Task Force is no longer in existence. Task Force members continue to seek a conversation and explanation for this in order to collaboratively work together to bring the voice of parents to the TAC in regards to AST.

TAC members have been told that the focus is on giving feedback on the Strategic Transportation Plan which is in development. TAC members are seeking clarification on how to get community views in order to give feedback, since there is direction being given not to reach out to the public for input.

There will be a special meeting on May 26th, which is open to the public. The link to the meeting is at:
