Peter got a response and they are doing tiny little things and nothing major happening.

d. Pattullo Bridge - Tim Y

2. Roundtable Updates: one minute update from each local committee

NORTH SHORE: Park Royal: reached out to council to connect North Van and West Van cycle paths. West Van Council have come back and don't think it is wide enough. Feel like we have been short changed by the council.

RICHMOND - Met Public works people last night in Richmond. River Road is still a very hot topic. Committee does not meet in July and Aug, but will get the paper ready by mid June. Arno suggested reaching out to a champion within City Hall to help out"

SURREY - there are plans of quite a large infr upgrade in city centre. Ken is making connection with City of Surrey. Met with TransLink and City to connect

VANCOUVER - big news is design concept for Arbutus Greenway. Good job of building a robust design and now it really is upto funding. City will be looking for funding by selling sections of the greenway that the city won't be using. We might have a clear picture before end of year.

City is looking for five year plan and we have submitted our one year plan. They are trying to get as many things as possible in June July before things slow down leading upto the election.

BURNABY - MLA from Burnaby North is in talks with MoTI. Burnaby is planning to move away from council and is looking to partner with local businesses like EA to build better infrastructure
