Dear Julie Facchin and Jeff Leigh:

Thank you for your letter of December 10, 2020, regarding my recent re-appointment as British Columbia's Minister of Environment and Climate Change Strategy.

I appreciate your kind words of congratulations and I am honoured to be able to serve the Province in this exciting role. I am enjoying the challenging portfolio and look forward to my added role as the Minister responsible for TransLink. As our government proceeds to chart the path forward with new ideas and fresh thinking for achieving robust, transparent and sustainable environmental and climate change goals, I will be pleased to meet with HUB Cycling to ensure that your ideas and plans for cycling infrastructure and active transportation can continue to be integrated in our work. Feel free to contact my office to set up a meeting.

I look forward to working with you and your organization to help further our goals and create new opportunities for shared successes.

Thank you again for taking the time to write.

Sincerely,

George Heyman
Minister
