HUB Langley Local Committee

Meeting Minutes

Date: Tuesday, February 16, 2021

Location: On-line meeting due to Covid-19 pandemic

Chair: Mitchell Nurse

Minutes: Tony Bisig

Attendees: Tony Bisig, Geraldine Jordan, Sarah Kikkert, Mitchell Nurse .

1. Welcome & introductions
2. Adoption of January minutes
3. HUB Langley Chair, Mitch Nurse, reached out to Rick Bomhof, Director of Engineering and Kyle Ford, Infrastructure Engineer with the City of Langley to learn of any new cycling infrastructure projects. Our City Engineering contacts were able to provide information on two important projects that will be of great benefit to Langley cyclists.
 - a) The **Glover Road** project is currently undergoing a re-design and construction will begin in summer 2021. The re-design includes a cycle track from Fraser Highway to Eastleigh Crescent. There will be separated bike lanes with planters between the vehicle travel lanes and the bike lanes from Eastleigh Crescent to Langley Bypass. HUB Langley will review the plans and offer feedback. Of special concern will be cycling infrastructure at intersections along Glover Road.
 - b) The **208 Street** project from 52a Street to Fraser Highway / Langley Bypass will include widened sidewalks on the bridge to a 3.3 meter MUP standard as well as sidewalk extensions north of the existing bike route. The intersection at Fraser Highway and Langley Bypass / 208 Street will have painted improvements. Construction can begin in summer 2021 after additional funding arrives from Translink.
4. Mitch reached out to Langley Township Manager of Engineering, Paul Cordeiro to obtain updates on upcoming projects. Paul was open to sharing information and asked Tammy Liu, Engineering Technologist II and key contact for cycling, pedestrian and transit planning to forward a list of current projects.
