Learn2Ride at Canyon Heights Elementary

Dear District of North Vancouver Council and staff,

HUB is a charitable organization working to get more people cycling, more often, and safely. Education plays an important part in safe cycling. This spring HUB Cycling will deliver a Learn2Ride course for grade 4 and 5 students at Canyon Heights Elementary. The course is supported by grant funds from BC Gaming that HUB applied for. The course is warmly welcomed by Canyon Heights' principal and staff. Attached you will find an overview of the Learn2Ride course for your information.

We would like to invite you and your colleagues to attend and observe the delivery of the course so that you can understand the delivery approach and course outcomes. The best day to observe, of the two, is the second when students are on their bikes. For either day you need only book into one session, as they are repeated for different groups of students.
