3. CoB Long range cycle network	James shared the map; grouped discussed how to approach feedback-will comment on several key routes we don't want them to act on and routes we want such as Winston; will also rank them in order of priority; ACTION: everybody to put ideas for response in chat; Cathy will get response in by Oct 19
4. response to our letter to city asking what spent prev yr on cycling	Response indicated \$900,000 for cycling in 2022 (Cathy wrote Alison indicating not correct); indicated there will be resource dedicated to cycling and a capital budget. David noted clearly approach to separating things out in the budget not implemented, this not credible. ACTION: Discuss this with mayor when we meet Nov 24, 5PM. Also, plan to prepare cycling project budget list in response to draft budget in early 2022. All to think about topics to share with mayor-share with Cathy.
5. Transportation Safety Committee	Cathy noted Ken stepping down as HUB rep. Group discussed the fact that we don't have a vote (Port Moody HUB rep votes). Decided we should get Ken's thoughts on value of being on committee before anyone volunteers. ACTION: Cathy asking Joe Keithley can Ken be replaced with another HUB member.
6. Ride with Alison Gu	Discussed plan -decided we'd start near Brentwood to show concerns with Willingdon Linear Park then Lougheed/Willingdon intersection and down to Quebec and First protected intersection. James noted he and Natasha could accompany Alison from there/her area. ACTION: Moreno will send out plan to be shared with Alison.
