**Funding for Mount Seymour Parkway bike lanes and greenway**

Dear Ms. Thornthwaite,

HUB is a charitable organization whose staff and 1,000+ members work to make cycling better in Metro Vancouver through education, action and events. The North Shore Committee of HUB would like to thank you and the provincial government for the funding that will help build bike lanes on Mt Seymour Parkway between Seymour Blvd and Riverside Drive. The Seymour Greenway will provide a great bike connection for people of all ages and abilities, especially once it connects to the Spirit Trail in Maplewood.

North Vancouver is becoming more bike-friendly with the help of Bike BC, with benefits for all residents in terms of health, livability, environment and reduced congestion.

Sincerely,

Antje Wahl  
Chair, North Shore Committee
