#### 4. Old Business

- 4.1 **TTAC PM**
- Kennedy Road overpass on hold;
  - Harris Road underpass going ahead - final design in Fall;
  - Have not heard back regarding trail over sewer line.

**TAC MR** - The initiative to explore what role the MR Transportation Advisory Committee (TAC) might have in promoting Active School Travel/School Trip Planning, (AST/STP) has been put on hold. An AST/STP Task Force was approved by the TAC in March 2020, but due to COVID-19, the work was unable to be completed by the end of the timeline, which coincided with the TAC members terms. Due to COVID, City Council decided to extend the TAC members terms to complete work done, however the timeline of the Task Force was not automatically extended as the AST/STP Task Force assumed had happened. The request to change the original timeline or strike a new task force has been made by the Task Force, however, a moratorium on new task forces being approved by all Advisory Committees has been struck. The AST/STP Task Force is hoping for resolution and resumption of the original task force at the April 28th meeting, since preliminary discussions with DPAC and PAC in Maple Ridge schools exhibit a desire to pursue this.
