Pollock from Engineering and Councilor Youssef were on hand to present on behalf of the city. There were some discussions around the need to plan for e-mobility devices such as e-bikes and e-scooters which do not mix well with peds on MUPs.

4.4 All Committee Workshop (Nov 28) debrief (10) – Peter attended on behalf of HUB MR-PM. Peter reported that several local chapters shared their experiences on local group rides.

4.5 232nd St road improvement open house - Dewdney Trunk Road - 116 Ave. (Nov 27th) debrief (10) – nobody ended up attending due to last minute arrangements.

5. New Business

5.1 117th open house and HUB position (15) – discussed impressions from the Open House and the city's proposal to have a MUP on the south side of the street. It was made clear that the project is by and large a traffic calming exercise. Judging from anecdotal feedback overheard from the Open House attendees, the local area residents were skeptical the proposed design would slow down the cars. Also discussed the need for bike-permeability through the curb extensions along 117th and also for the existing curb extension just south of Lougheed on Laity. Barry will be arranging a meeting with Michael Canning in a couple of weeks to express HUB's position.

5.2 HUB Volunteer Award Evening, Thu Feb 27 (10) – Barry will be there to receive the Volunteer Award. Ivan also plans to attend.

5.3 Cycle Guide and Map Project (15) – no news.
