Re: 29th Street Improvements Letter of Support

June 21, 2019

Dear Angus,

HUB Cycling is a charitable organization working to get more people cycling, more often and making cycling safer and better through education, action and events. More cycling reduces greenhouse gas emissions, relieves traffic congestion and means healthier, happier and more connected communities.

We are very supportive of the District of North Vancouver's plans to proceed with cycling and safety improvements on 29th Street connecting the 27th Street bike route to the Lynn Valley Town Centre. The improvements to this east-west corridor will help to address previously identified gaps in the North Vancouver Bicycle Master Plan and more importantly help to encourage and retain new riders who are not accommodated by the corridor in its current configuration. These new riders will be a key component of meeting the Official Community Plan walking, cycling and transit transportation target of 35% by 2030, as well as Community Energy and Emissions Plan (CEEP) goals.

HUB appreciates the ongoing efforts of staff and support from council in creating a corridor that will serve a wide range of users.

Yours sincerely,

Don Piercy,
Chair, HUB North Shore Committee
